

Frequently Asked Questions

Who will have access to my info?

Only Law Enforcement has access to your Emergency Contact Information.

Will my information be used for any other purpose?

NO, this info is only used to contact the contacts that you designate **in the event of an emergency**.

Why was this system developed?

This system was developed because **there was no emergency contact program in place** to notify loved ones in the event of an emergency.

This program was initiated by Christine Olson in loving memory of her daughter Tiffiany because she was involved in a fatal accident and it was over 6 hours before any notification took place.
